OBJECTIVE

- Motivated final-year B.Tech Computer Science student with a passion for programming and software development. Eager to apply academic knowledge and enhance technical skills through a meaningful professional experience.

EDUCATION

•B-Tech in Computer Science And Engineering

Saintgits College of Engineering

2023-Present

CGPA/Percentage: 7.56

•Class 12 - CBSE

SDV English Medium Higher Secondary School, Alappuzha

2023

CGPA/Percentage: 91.6

EXPERIENCE

•AonZ.ai

Intern

[May, 2026] – [August, 2026]

[On-site]

•NeST Digital

Intern

[June, 2025] – [July, 2025]

[Online]

TECHNICAL SKILLS

- Languages:** C, Python, Java
- Frameworks & Libraries:** PyTorch, LangChain
- Web Technologies:** HTML, CSS
- Database:** MySQL
- Tools and Platforms:** Git, VSCode, Linux
- Concepts:** Data Structures, OOP, DBMS, OS

CERTIFICATIONS

- Programming Fundamentals using Python - Infosys Springboard
- Object Oriented Programming using Python - Infosys Springboard
- Introduction to Machine Learning - NPTEL
- Programming Using Java – Infosys Springboard

ACHIEVEMENTS AND ACTIVITIES

- Member of Cyber Security Club – Saintgits College of Engineering
- District Topper in Plus two CBSE Physics

PROJECTS

Medical Speech-to-Text System using Google MedASR (Internship Project)

Developed a specialized medical speech-to-text (STT) transcription solution leveraging Google's MedASR to accurately transcribe complex clinical terminology and audio workflows.

AI-Based 2D Frame Interpolation

Developed an AI-based system using deep learning techniques to accurately generate intermediate frames between video images.

Speech-to-Text and Text-to-Speech Processing Model (Internship Project)

Engineered a speech processing application integrating advanced Speech-to-Text (STT) and Text-to-Speech (TTS) pipelines.

Database Retrieval System (Internship Project)

Developed an efficient database retrieval system to optimize data querying and extraction during an internship.
